SikaShield® ANCHOR SYSTEM

THE MULTIPURPOSE FASTENING SOLUTION IN COMBINATION WITH
BITUMINOUS ROOF WATERPROOFING MEMBRANES

BUILDING TRUST

WORLDWIDE CONSTRUCTION AND INDUSTRY SOLUTIONS

Sika's history began in 1910 with the electrification of the Gotthard railway tunnels. The Swiss company founded by Kaspar Winkler played a decisive role in this momentous project. A revolutionary new waterproofing mortar was developed, marking the beginning of Sika's global reputation for high quality.

Today the Sika Group is a leading global manufacturer of construction chemical products and systems as well as industrial sealants and adhesives. The Group's core competencies – sealing, bonding, damping, reinforcing and protecting load-bearing structures – have been enabling a wide range of applications in the construction sector and in industrial production for over 100 years. The high-quality product range includes concrete admixtures, special mortars, sealants and adhesives, damping and reinforcing materials, floor coating systems, sealing membranes and corrosion protection products.

Sika annually produces a volume of roofing membrane that could cover the entire area of Manhattan. More than 10,000 roofing contractors in over 85 countries are Sika-trained and certified, which ensures qualified installation.

All our customers – developers, building owners, architects, engineers, consultants and contractors – receive expert advice from our highly competent team. Building on a foundation of trust, we offer our experience and knowledge to provide recommendations and long-lasting solutions for any project you may have.

Roofing can be selected and designed to meet the specific technical requirements and budget of almost any roofing project. Our tailored solutions allow freedom of design and form, with no limitations on geometry or color, to meet the specific requirements of any type of roof.

STRATEGIC SUCCESS THROUGH GLOBAL PRESENCE

- With subsidiaries in over 100 countries, Sika offers local presence worldwide
- Sika operates over 400+ production sites and sales locations
- Sika employs approximately 33,000 people worldwide
- The Sika umbrella brand covers some 930 Sika product trademarks
- In fiscal year 2025 the Sika Group achieved sales of approximately CHF 11.20 billion

SikaShield® ANCHOR SYSTEM

GENERAL PRODUCT INFORMATION

ASPECTS SUCH AS EASE OF INSTALLATION, MULTIPURPOSE USE, RECYCLABILITY are becoming increasingly important in today's construction business. With the new SikaShield® Anchor system, Sika Roofing is following this direction and sets new standards. The system is used as a universal connection point for fixing roof mounted products to exposed SikaShield® bituminous membrane flat roof assemblies. All metal parts are made of non corrosive metal and therefore very durable and free of corrosion during the whole life cycle.

SikaShield® Anchor 400

DESCRIPTION
SikaShield® Anchor 400 is a manufactured preformed accessory that provides a secure, double anchor welding and universal connection point for fixing roof mounted products to exposed SikaShield® bituminous roof waterproofing membranes. The top surface is coated with mineral granules which allows permanent exposure to UV radiation and the underside has a burn-off film for easy torch or hot-air application.

APPEARANCE / COLOR
Dark grey mineral granules finishing.

SikaRoof® Anchor Washer 140

DESCRIPTION
SikaRoof® Anchor Washer 140 is a manufactured preformed stainless steel fastening plate providing a secure connection directly to the roof substructure / roof deck.

USES
Fastener plate in combination with the SikaShield® Anchor 400 for fixing roof mounted products to exposed SikaShield® bituminous roof waterproofing membranes.

Features	Advantages	Benefits
Double anchor welding flange Ø 300 mm (base sheet) and Ø 400 mm (cap sheet)	Easy to hot-air or torch apply	Secure watertight connection to the roofing membrane
Anchor welding flange composed of SBS base sheet and hybrid SBS / APAO cap sheet	Correspond with the SikaRoof® Application Manual	Resistant to weathering and UV exposure
Anchor has M12 internal thread for easy transition	Ease of application of further build-up	A broad range of build-up systems possible
All metal parts are made of non corrosive metal	No corrosion expected	Long lifespan
Octagon washer with Ø 140 mm	Sufficient load distribution	Removes the windload off the membrane onto the structural deck
Washer with fastener holes 7.20 and 15.35 mm	Also suitable for Sarnabar® Tube fastening system	Wider range of thermal insulation can be used
Anchors arranged as point fastening	Free waterflow to the rainwater outlets is ensured	No additional weight on the roof due to ponding water

GENERAL PRODUCT INFORMATION

TECHNICAL INFORMATION

SikaShield® Anchor 400

SikaRoof® Anchor Washer 140

TYPICAL APPLICATION

SikaShield® ANCHOR SYSTEM

INSTALLATION AND FASTENING SELECTION

Easy, safe and reliable installation, all done by the trained Roofing contractor.

Sarnafast® Fastener SBF-6.0 or alternatively Sarnafast® Fastener SBF-6.0 with Sarnabar® Tube SBT-20.

Sarnafast® Fastener SBF-6.0

DESCRIPTION

Hardened carbon steel fastener.

USES

Fastener in combination with SikaRoof® Anchor Washer 140 mm and Sarnabar® Tube SBT-20 into corrugated steel, concrete and plywood / OSB decks.

CHARACTERISTICS / ADVANTAGES

- Resistance against common environmental influences
- Easy application in use with recommended setting tools

- Self drilling fastener, no pre-drilling for steel and plywood / OSB applications
- Chrome VI-free
- Recyclable

TECHNICAL INFORMATION

Diameter: 6.00 mm
Head diameter: 9.80 mm
Available lengths: 35-300 mm
Torx T25
Corrosion resistance: 15 cycles according to Kesternich

Sarnabar® Tube SBT-20

DESCRIPTION

Polyamide tube (PA 6) for the perimeter fastening and induction welding.

USES

Tube in combination with Sarnafast® Fastener SBF-6.0 on all decks.

CHARACTERISTICS / ADVANTAGES

- High resistance against mechanical inputs
- Lightweight

- Resistance against common environmental influences
- Easy application in use with recommended setting tools
- Recyclable

TECHNICAL INFORMATION

Diameter: 20 mm (at collar)
Hole diameter: 12.40 mm
Available lengths: 40-400 mm
30 h conditioned in conditioning cell

WHO WE ARE

Sika Limited and Sika Ireland Limited are part of the global Sika Group, specialising in the manufacture and supply of chemical based products. Sika has a global leading position in the development and production of systems and products for bonding, sealing, damping, reinforcing, and protection in the building sector and motor vehicle industry. Sika has subsidiaries in 102 countries around the world and, in over 400 factories, produces innovative technologies for customers worldwide. In doing so, it plays a crucial role in enabling the transformation of the construction and vehicle industries toward greater environmental compatibility. In 2025, Sika's 33,700 employees generated annual sales of CHF 11.20 billion (£10.35 bn).

In the UK and Ireland, we provide market-leading solutions for building finishing, concrete, waterproofing, roofing, flooring, refurbishment, sealing & bonding, and industry, and have manufacturing sites in Welwyn Garden City, Preston, Leeds, Wishaw, Redditch, Goole and Dublin with 1000 employees and a turnover of more than £306 million.

The information, and, in particular, the recommendations relating to the application and end use of Sika® products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The proprietary rights of third parties must be observed. Please refer to our homepage www.sika.co.uk for our current standard terms & conditions applicable to all orders. Users should always refer to the most recent issue of the Product Data Sheet for the product concerned, copies of which will be supplied on request.
