

PRODUCT DATA SHEET

Sika® Cleaner G+P

 WATER-BASED CLEANING AGENT FOR GLASS AND PLASTIC SUBSTRATES

TYPICAL PRODUCT DATA (FURTHER VALUES SEE SAFETY DATA SHEET)

Chemical base	Water-based, containing Isopropanol
Colour (CQP001-1)	Light blue, transparent
Application temperature	5 – 40 °C
Application method	Spray and wipe
Shelf life	60 months

CQP = Corporate Quality Procedure

DESCRIPTION

Sika® Cleaner G+P is a water-based, alcohol containing, light blue transparent cleaning agent for glass, plastics and non-porous substrates.

It can be used for the removal of finger marks, residues and general grime. The product leaves no residue on the surface, thus ensuring easy use and no need to re-polish the windscreens afterwards.

Primer Product Benefits

- Can be used on glass, plastic and other non-porous surfaces
- No repolishing required
- Streak free

AREAS OF APPLICATION

Sika® Cleaner G+P is used to clean substrates such as glass, plastic, paint surfaces and other non-porous materials.

This product is suitable for experienced professional users only. Tests with actual substrates and conditions have to be performed to ensure adhesion and material compatibility.

METHOD OF APPLICATION

Apply Sika® Cleaner G+P on surface and wipe dry with a dry, clean, lint-free cloth. Surfaces must be allowed to dry completely before initiating the next step in surface preparation.

Sika® Cleaner G+P Concentrate needs to be diluted with deionized water. The mixing ratio is 1 to 4, therefore 5 l concentrate need to be diluted with 20 l deionized water to get 25 l of Sika® Cleaner G+P.

IMPORTANT NOTE

Before applying Sika® Cleaner G+P to sensitive surfaces, test it on a small, possibly non-visible area of the base material to ensure compatibility. Before application of adhesive, the surface has to be prepared according to the Sika surface preparation recommendations.

FURTHER INFORMATION

The information herein is offered for general guidance only. Advice on specific applications is available on request from the Technical Department of Sika Industry.

BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

HEALTH AND SAFETY INFORMATION

For information and advice regarding transportation, handling, storage and disposal of chemical products, users shall refer to the actual Material Safety Data Sheets containing physical, ecological, toxicological and other safety-related data.

DISCLAIMER

The information, and, in particular, the recommendations relating to the application and enduse of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
